Introducing the RWA Battle Arms Development 556LW AEG. The RWA B.A.D. 556LW is a fully licensed product that combines cutting edge design from both Battle Arms Development and Fortis MFT. In representing these leaders of the firearms industry, RWA has spent countless hours to ensure that attention has been paid to the smallest of details.

Externally the rifle sports a premium look and each line, logo, and cut found on the rifle mirrors its real steel counter part. The 556LW also features the same Switch rail system by Fortis to ensure authenticity of look and function. Internally the rifle boasts industry leading electronics in partnership with GATE Electronics and comes pre-installed with an RWA edition ASTER. This AEG is ready to thrill players with its premium looks and highly capable performance!
